Search for leptoquark signatures with the ATLAS and CMS detectors

Friday, 4 July 2014 13:10 (20)

The most recent results on searches for 1st, 2nd, and 3rd generation leptoquarks with the ATLAS and CMS experiment are presented. Alternative interpretations of the searches for R-parity-violating stop squark decays are also presented.

Summary

Primary author(s) : MEYER, Arnd (RWTH Aachen University)

Co-author(s) : MOORTGAT, Filip (CERN)

Presenter(s) : Dr. ROMEO, Francesco (IHEP of Beijing)

Session Classification : Beyond the Standard Model

Track Classification : Beyond the Standard Model
