

Collider Physics in Mexico

Thursday 17 September 2015 - Tuesday 22 September 2015

FCFM-BUAP, Puebla

Scientific Programme

PROGRAM:

- The program includes the following series of lectures:

- a) Introduction to QCD - Maria Elena Tejada-Yeomans (Unison, Mexico),
- b) Amplitudes - Raffaele Fazio (Universidad Nacional de Colombia, Colombia),
- c) Computer tools in HEP- Matthew Low (University of Chicago, USA),
- d) Review talks on physics at future colliders - Jens Erler (IF-UNAM, Mexico).

-Tutorial sessions on collider computer tools will be held during the afternoons.
