

Planck 2016

Monday 23 May 2016

Cosmo 1 (15:00-16:40)

time	[id] title	presenter
15:00	[16] Linear inflation from quartic potential	RACIOPPI, Antonio
15:20	[37] Inflation from $f(R)$ theory with all possible terms	ARTYMOWSKI, Michal
15:40	[62] D6-branes and axion monodromy inflation	LANDETE, Aitor
16:00	[68] Natural Inflation with Hidden Scale Invariance	LIANG, Shelley
16:20	[179] Do current data prefer a non minimally coupled inflation?	RAMÍREZ RODRÍGUEZ, Héctor
