

# VII CPAN DAYS

## Tuesday 01 December 2015

### Sesión sobre investigación orientada y tecnología (15:00-17:00)

time	[id] title	presenter
15:00	[170] CIEMAT Technologies for Particle Physics and Astroparticles	FERNÁNDEZ BEDOYA, Cristina
15:20	[171] Activities of GAE-UCM and GDR-IMB on pixelated silicon detectors	ROSADO, Jaime
15:40	[172] Technology Transfer Activities at the Space Science Institute (Instituto de Ciencias del Espacio - ICE)	Prof. ELIZALDE, Emilio
16:00	[173] HEP to Industry technology transfer example: Alibava Systems Company.	Dr. MARTI GARCIA, Salvador
16:20	[174] Novel silicon microdetectors for microdosimetry and new hadrontherapy methods	Dr. GUARDIOLA SALMERON, Consuelo
16:40	[175] IRIS technological developments in PET and Hadron Therapy	Dr. LLOSA, Gabriela

### Sesión sobre investigación orientada y tecnología (17:30-18:30)

time	[id] title	presenter
17:30	[176] Technological applications at the National Accelerator Centre (Centro Nacional de Aceleradores – CNA)	Prof. GOMEZ CAMACHO, Joaquin
17:50	[177] Radiobiological studies with low energy protons	Dr. ESPINO, José M.
18:10	[178] Developments at IMB-CNM different than Detectors for HEP: Microchannel Cooling, Detectors for Nuclear Physics, Embedded Fanins, JFETs.	Prof. LOZANO, Manuel
