## How to use the Grid for my e-Science

*martes, 6 de julio de 2010 12:20 (60)*

- a guide on things I must know to benefit from it -

This talk will provide a user perspective of what the distributed computing in general, and grid computing in particular can help in solve the problems.

A general view and first Details ant technical issues will be provided on Middleware like gLite, that will be explored in detail in further Hands-on Sessions the rest of the course
