Ongoing work

- Working with Heuijin in HLT
- Preparing ROOT macro for Team 5 analysis
- Run TrigTileMuId during cosmics runs in M3 week (prepare new tag to use 12.0.5-COS nightlies and include in cosmics slice). New tags already present in 13.0.20 and 13.1.0 nightlies
- Working in TileByteStream converters to combine different fragments for encoding simulated files
- Write ATLAS Internal Note about low p_T muon trigger
