

RETENU 07

Friday 19 October 2007

Session III: Nu oscillations in the morning (09:30-13:00)

time	[id] title	presenter
09:30	[9] Status of T2K	SÁNCHEZ, F.
10:00	[10] Interpretation of neutrino oscillations based on new infrared physics	CARMONA, J.M.
10:30	[11] Detector R&D for future neutrino oscillation facilities	CERVERA, A.
11:00	Coffee break	
11:30	[12] Reconciling MiniBoone & LSND via a long range B-L force	NELSON, Ann
12:00	[13] Sterile neutrino oscillations after first MiniBooNE results	MALTONI, M.
12:30	[15] Status of Double Chooz	GIL, I.
