

# 17th International Conference on Topics in Astroparticle and Underground Physics (TAUP 2021)

## Monday 30 August 2021

### Discussion Panel Underground Laboratories 1 (17:10-18:00)

| [id] title   | presenter              | board |
|--|------------------------|-------|
| [354] Callio Lab – the deep underground research centre in Finland, Europe               | JOUTSENVAAARA, Jari    |       |
| [260] The New Underground Facility (Yemilab) in Korea                                    | PARK, Kang Soon        |       |
| [198] Status and prospect of China Jinping Underground Laboratory                        | MA, Hao                |       |
| [200] Low radioactivity and Multi- disciplinarily Underground Laboratory of Modane (LSM) | DASTGHEIBI FARD, Ali   |       |
| [454] Deep Science at Boulby Underground Laboratory                                      | PALING, Sean           |       |
| [405] LABChico: a shallow underground laboratory in Mexico                               | VAZQUEZ-JAUREGUI, Eric |       |
| [383] The ANDES Deep Underground initiative and underground mine sites in Argentina      | BERTOUC, Xavier        |       |
| [365] The Sar-Grav Laboratory  | ROZZA, Davide          |       |
| [321] The Sanford Underground Research Facility  | HEISE, Jaret           |       |
