

# 17th International Conference on Topics in Astroparticle and Underground Physics (TAUP 2021)

## Monday 30 August 2021

### Discussion Panel Dark Matter 2 (17:10-18:00)

[id] title	presenter	board
[40] Probing light dark matter particles with astrophysical experiments	PODDAR, Tanmay Kumar	
[57] The Earth as a transducer for dark-photon dark-matter detection	KALIA, Saarik	
[455] Neutrino and Axion Astronomy with Dark Matter Experiments	TAKHISTOV, Volodymyr	
[447] Radio-frequency Dark Photon Dark Matter across the Sun	LIU, Jia	
[426] Stellar Shocks from Dark Matter	DAS, Anirban	
[159] Searching for a Dark Matter with the PADME experiment	OCEANO, Isabella	
[154] Studying QCD modeling of uncertainties in particle spectra from dark-matter annihilation into jets	JUEID, Adil	
[133] Signatures of Primordial Black Holes in theories of Large Extra Dimensions	FRIEDLANDER, Avi	
[87] Signatures of primordial black hole dark matter at DUNE and THEIA	DE ROMERI, Valentina	
[78] Low Mass Black Holes from Dark Core Collapse	LAHA, Ranjan
