

Preparation of monochromator and gas setup

miércoles, 20 de octubre de 2021 10:00 (10)

Action Items:

- Understand disposition of elements in the sphere and coupling of sphere to monochromator
- Understand Monochromator elements and how to dispose them in a table/acrylic-box/black-box
- Test the pumps and learn how to use them. Mount the system.
- GN2 usage and bottle holder. The maintenance guys need a document with few pictures and text explaining what we want to do. They need to send the document to “prevencion de riegos laborales”
- Oxygen detector (DONE. This is what they usually buy at IFIC: link)
- Pressure gauge. Understand how to use it

Presenter(s) : CERVERA, Anselmo (IFIC); YAHLALI, Nadia (IFIC)
