

XIV CPAN DAYS

Thursday 24 November 2022

Plenary Session (12:00-14:10)

time	[id] title	presenter
12:00	[674] Inauguración	
12:30	[675] First observations with LST-1, the prototype Large Size Telescope of CTA	MORALEJO, Abelardo
13:05	[676] Gamma-ray imaging for nuclear astrophysics studies and applications	DOMINGO-PARDO, César
13:40	[677] Future perspectives for Higgs physics and theoretical challenges	HEINEMEYER, Sven

Plenary Session (16:00-17:10)

time	[id] title	presenter
16:00	[681] ANAIS-112: first direct test of DAMA/LIBRA beyond three sigma	MARTÍNEZ, María
16:35	[682] Nuclear and hadronic physics at low energies from lattice QCD	PARREÑO, Assumpta

Plenary Session (17:40-19:30)

time	[id] title	presenter
17:40	[678] Development towards a Higgs/top/EW factory	FOUZ, Mary Cruz
18:15	[679] Status of FPN National Projects	HERNÁNDEZ, Pilar
18:50	[680] Open session	

Friday 25 November 2022

Plenary Session (09:00-10:45)

time	[id] title	presenter
09:00	[683] LHC experiments performance, first results and opportunities for Run-3	JUSTE, Aurelio
09:35	[684] Holography applied to nuclear physics and astrophysics	HOYOS, Carlos
10:10	[685] Accessing nuclear structure with low-energy reactions	LAY, José Antonio

Plenary Session (11:15-13:45)

time	[id] title	presenter
11:15	[686] The Swampland	VALENZUELA, Irene
11:50	[687] Neutrinos at the Mediterranean: past, present and future	ZORNOZA, Juan de Dios
12:25	[688] The roadmap towards the Higgs discovery and understanding	CUEVAS, Javier
13:00	[689] Homenaje a los pioneros españoles en el LHC	
13:15	[690] Premios concurso de divulgación y clausura
