

Trigger and readout at the LHC experiments for Run 3 and beyond in Spain - COMCHA

Introduction and goals

Thanks

- To all of you for registering, sending contributions, and making the effort of coming here.
- To our colleagues here at IFIC for taking care of the local organization details.
- To the IFIC administration for sponsoring our coffee breaks.

Thank You

Introduction and goals

- Learn what the different groups working in the trigger and data acquisition systems of the LHC experiments at CERN for Run 3 and beyond are doing.
- Establish synergies among the different groups.
- Share, ask, discuss, participate...
- Think about the future, perhaps this is the seed of many fruitful collaborations to participate in very interesting R&D projects.

Workshop dinner

Please answer the survey if you are willing to join the dinner: <https://indico.ific.uv.es/event/6923/surveys/>

COMCHA School in Oviedo

23-31 October 2023
