

# Nufact08, 10th International Workshop on Neutrino Factories, Superbeams and Betabeams

## Wednesday 02 July 2008

### Working groups - S3': WG3 - Sala multiusos (15:00-17:00)

time	[id] title	presenter
15:00	[115] RCS design	Sr. LACHAIZE, Antoine
15:25	[116] Decay ring status / studies	Dr. CHANCE, Antoine
15:50	[117] High frequency ECR source (60 GHz) in pre-glow mode for bunching of beta-beam isotopes	Dr. THUILLIER, Thomas
16:15	[118] Direct production of $^8\text{Li}$ and $^6\text{He}$ using neutrons from low energy deuterons	Prof. HASS, Michael
16:40	[119] R&D challenges in FP7	Dr. DELAHAYE, Pierre
