

Third Workshop on Flavour Physics in the LHC Era: Theoretical and Experimental Views

Monday 04 February 2013 - Wednesday 06 February 2013

Universe

Scientific Programme

Main topics of the workshop will be:

Overview on Flavour Physics,

$B_s \rightarrow \mu\mu$,

Soft Collinear Effective Theory,

$B \rightarrow K^{*ll}$,

Potential of the LHCb experiment,

Tau decays (with some charm),

Lepton Flavour Violation,

Non-leptonic B decays and

Lattice QCD.
