

Third Workshop on Flavour Physics in the LHC Era: Theoretical and Experimental Views

Tuesday 05 February 2013

Tau session with some charm - 1001-Primera-1-1-1 - Paterna. Seminario (15:00-17:00)

time	[id] title	presenter
15:00	[18] Rare tau decays at LHCb	Mr. SEYFERT, Paul
15:20	[19] Tau decays	Prof. PICH, Antonio
15:40	[20] New tau physics measurements that should be performed at the present and future facilities	Dr. ROIG, Pablo
16:00	[21] Some provocative ideas	Prof. BERNABÉU, José
16:20	[22] $B \rightarrow D^* \tau \nu$, an impossible measurement at LHCb?	CELIS, Alejandro
16:40	[23] Can we understand $B \rightarrow D^{(*)} X \ell \nu$ decays?	Mr. ROUDEAU, patrick
