

# EURO-LABS Hands On Schools

EURO-LABS is committed to improve the efficiency of use of RIs and to increase its human and institutional basis. To this aim, EURO-LABS organizes a system of training activities, at various levels, starting with annual Basic Training schools and Advanced Training schools.

EURO\_LABS Webpage: <https://web.infn.it/EURO-LABS>

- **Basic training school of 2024: 18-28 of June 2024 in Warsaw, Poland**

It will involve hands-on activities around the accelerators in Warsaw. The training will from vacuum and target technology, to detectors and detectors array, accelerators and DAQ. **Announcement in February**

- **Advanced training school of 2024 dedicated to Operation of Accelerators, June 3<sup>rd</sup> – 7<sup>th</sup>, 2024** to be organized at **CERN, Geneva, Switzerland**. It will involve hands-on activities in three facilities: CLEAR, ISOLDE and PSBooster. The training will cover an introduction to accelerators, control systems, beam characterization, steering algorithms, phasing SC cavities and other advanced topics.

**To apply** please register online at <https://indico.cern.ch/event/1357293/> or write to [mgb@cern.ch](mailto:mgb@cern.ch). Dealine : January 31st
