

#StudentSeminars: Department of Astronomy and Astrophysics Session

Friday 01 March 2024

Morning Session - Classroom 4204 (10:00-12:00)

time	[id] title	presenter
10:00	[1] Dynamics of Core Collapse Supernovae: Simulations, Observations, and Detectability	CUSINATO, Marco
10:40	[2] Exploring magnetic field geometry in binary neutron stars: Implications for short gamma-ray bursts	ANDRADE RAINHO, Inês
11:20	[3] Studying the nonlinearities in the delta Scuti Stars through Asteroseismology	RODRÍGUEZ SÁNCHEZ, Miriam
