

LHCPHENO 2024: Workshop on High-Energy Physics Phenomenology in the LHC era

Wednesday 19 June 2024

S1 - 1001-Primera-1-1-1 - Paterna. Seminario (09:30-11:00)

time	[id] title	presenter
09:30	[1] Precise theoretical predictions at colliders	CIERI, Leandro Javier
10:00	[2] QCD-QED resummation for Drell-Yan process using DYTURBO	AUTIERI, Andrea
10:30	[3] On a pseudoscalar lighter than the SM Higgs: a global analysis of the A2HDM	COUTINHO, Antonio

S1 - 1001-Primera-1-1-1 - Paterna. Seminario (11:30-13:00)

time	[id] title	presenter
11:30	[4] Bounds on Heavy Sterile Neutrino from the angular analysis of $B \rightarrow D^{*} \ell \nu$ decays	FEDELE, Marco
12:00	[5] Finite Renormalization of Four-Fermion Operators in SMEFT	FERRANDO SOLERA, Sergio
12:30	[6] Full top-quark mass dependence in diphoton production at NNLO in QCD	CORO, Federico
