ICE-10: Quantum Information in Spain

Friday 24 October 2025

Fifth Day: Invited talk - Auditorio Joan Plaça (9:30-10:00)

time	[id] title	presenter
9:30	[335] Invited talk	MURALI, Prakash

Fifth Day: Contributed talk - Auditorio Joan Plaça (10:00-11:00)

time	[id] title	presenter
10:00	[336] An Adaptive Qubit Routing Algorithm for Ion-Trap QCCD Architectures	OVIDE GONZALEZ, Anabel
10:20	[337] NetQMPI: programming Distributed Quantum Applications over NetQASM using an MPI-like model	CARDAMA SANTIAGO, Francisco Javier
10:40	[338] Unlocking Multi-Dimensional Integration with Quantum Adaptive Importance Sampling	PYRETZIDIS, Konstantinos

Fifth Day: Contributed talk - Auditorio Joan Plaça (11:30-12:50)

time	[id] title	presenter
11:30	[339] Connecting time crystals to many-body protection	KASNETSI, Paraskevi
11:50	[340] Chiral cat code: Enhanced error correction induced by higher-order nonlinearities	LABAY MORA, Adrià
12:10	[341] Swap Network Augmented Ansätze on Arbitrary Connectivity	PARELLA DILMÉ, Teodor
12:30	[342] Using symmetries to enhance classical simulation	PERES, Filipa
