

CosmoVerse@Bilbao 2026

Tuesday 15 September 2026

Morning Session (Tuesday) (9:00-12:40)

time	[id] title	presenter
9:00	[105] Opening Talks	
9:10	[106] Overview of the ESA Euclid mission	PETTORINO, Valeria
9:50	[80] Evidence of deviations from LCDM from a new Hubble Diagram of Quasars	RISALITI, Guido
10:15	[36] CORN - Chronometers Of Relic Nature: Estimate of the expansion rate of the Universe using compact relic galaxies	LISIECKI, Krzysztof
10:40	[107] Coffee Break	
11:10	[108] Is the Hubble tension a mystery of the small-scale Universe?	CHLUBA, Jens
11:50	[60] New Constraints on the Varying Electron Mass Solution to the Hubble Tension	TODA, Yo
12:15	[70] AMICO galaxy clusters in KiDS-1000: cosmological constraints from the two-point correlation function	ROMANELLO, Massimiliano
