

CosmoVerse@Bilbao 2026

Wednesday 16 September 2026

Morning Session (Wednesday) (9:00-12:30)

time	[id] title	presenter
9:00	[113] H0 (+other things) from GW Sirens	BAKER, Tessa
9:40	[43] Geometric Constraints on the Pre-Recombination Expansion History from the Hubble Tension	PEDROTTI, Davide
10:05	[31] Revisiting the Hubble Constant with FRBs: Evidence for Redshift Evolution	Dr. KALITA, Surajit
10:30	[114] Coffee Break	
11:00	[115] Cobaya development updates	TORRADO, Jesus
11:40	[16] Systematic uncertainties in optimal de-lensing of CMB B modes with cross-correlation of CMB and galaxy survey	DEKA, Kishan
12:05	[21] Constraining primordial gravitational wave amplitude and de-lensing of CMB maps - influence of Galactic foregrounds	BIELEWICZ, Pawel
