Parallel sessions on tuesday/wednesday/thursday mornings.

Ideally, 3 rooms in paralel with 3 tracks with up to 16 talks each (15minutes including questions).

If more rooms are needed, it is logistically feasible (4-5).

Fine tuning to be agreed between in this meeting

ECR posters

You may have seen duplicated abstracts by ECRS

We asked the ECRs with fee waiving to submit their talk as a poster too to enhance the poster session.

All these should go to a dedicated “poster session” → not set up yet in indico.

Once that this is set-up, please accept them as poster (not as talks in your session).
