

Jornadas de la Red Española de Futuros Colisionadores

Monday 19 October 2026 - Wednesday 21 October 2026

Delegacion del CSIC

Scientific Programme - sessions

The meeting unites the Spanish communities working on theory and analysis, accelerator and detector R&D, involved in future collider projects and detector concepts

Apart from the opening and closing sessions, that highlight recent developments and Spanish contributions to FCCee and other future colliders, there are four topical sessions:

- detector R&D, chaired by Arantxa Ruiz and Ivan Vila
- accelerator technology, chaired by Conchi Oliver and Daniel Esperante
- theory and analysis, chaired by Nestor Armesto, Jorge de Blas, Maria Moreno and Jose Miguel No
- detector concepts, chaired by Adrian Irlles, Mary Cruz Fouz and Ximo Poveda

Get in touch with the conveners by e-mail if you have any doubts about the session or about abstract submission
